

"The title of the paper is Mathematics, the duration of the exam is 120 minutes, the exam is of 100 marks. This is a CBSE board exam for class 10th students. The question I am asking from triangles and it is of 5 marks, the question is: 'In a right-angled triangle, if one angle is 30° , what is the other acute angle?', and the answer is ' 60° '. To help the students I am also providing a hint: 'Remember that the sum of angles in a triangle is 180° '"
